Reclaim covering driver's license fee

1. In accordance with our conversation there is attached for your consideration, the reclaim of Mr. [REDACTED] of the [REDACTED] in the amount of \$4.00 covering in part a request for reimbursement of \$2.00 expended for a driver's license in connection with the use of a Government owned passenger carrying vehicle on official business. The problem of determining the propriety of reimbursement to the claimant appears to be associated with the matter of arriving at a proper decision as to whether or not the Government can properly reimburse a traveler for parking meter fees when Government owned cars are parked in metered zones in various cities and municipalities.

2. The general problem surrounding this matter is of considerable importance (although a large sum of money is not involved) since such items will be of a recurring nature and inasmuch as there appears to be a question of sovereignty involved.
